## A Student's

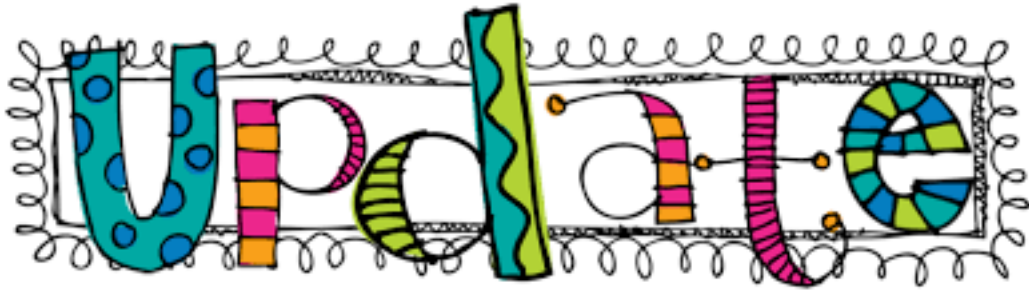

### MARIALUISA: I FEEL BLESSED TO HAVE HILDE AS MY SPONSOR

(Unedited)

I don't remember when I first met Hilde, who will later be my sponsor. I was very young but I remember for years going to her house because of my Mom's work with her. I started having a bigger connection with her when my family had struggles and she would help us. She always made it fun being at her home. We had sleepovers, made food, watched movies and more. She always wants me to be the best person I can be and she loves me unconditionally. Her whole family is so nice and I don't wish for anyone or anything better!

(Unedited)

Antonio and His Sponsor Priscilla

My name is Antonio, I am seventeen years old, I live with my family in Rosarito, Mexico. We are a small family, just both of my parents, my older sister and me. My mom and dad were both elementary school

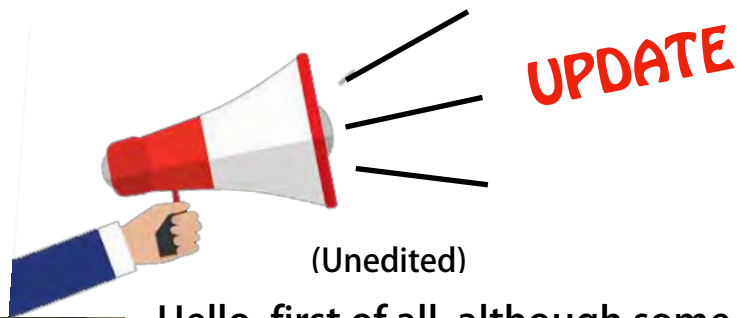

teachers, and my sister is currently in her tenth and last college semester while working as a junior architect.

I am about to begin my sixth and final high school semester, where I am specializing in accountability. Ever since the pandemic started, my family and I have been spending more time together at home. Mostly in the evenings when my sister comes home from work.

When high school is over, I am planning on studying economics in Tijuana.

I have just recently discovered my interest in economics thanks to one of my high school teachers. And I plan on pursuing this career throughout my adult life because I found it fascinating how people can study the market and make some predictions based on their knowledge.

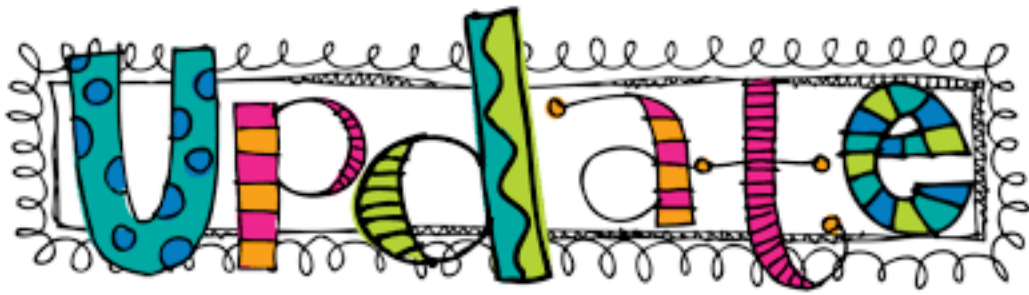

Sincerely  
Antonio Ayala

(Unedited)

Hello, first of all, although some people already know me, I introduce myself; My name is Johann Juarez, I am 22 years old and I am currently two semesters away from finishing this long career, but also something that I have enjoyed the most in life, and all with the support that BSF has given me, and with all my desire that I have put to this way. The career that I am studying is Psychology, and I have to admit that it is a career that captured my attention from the beginning, and in which I wanted to specialize, but, when I entered the career, it ended up capturing me and teaching me many things that before overlooked the importance of emotions, mental health, and self-worth. This same thing has helped one of my hobbies, which is being a streamer, and both have helped me with each other, since it has given me more confidence when speaking and presenting issues in front of people. One of my dreams in the same way is to be able to complete all my goals in terms of being a streamer, since this has also helped me meet new people, and new friends. Honestly, at this point in my life I feel very happy and eager to meet my goals, since I consider myself an ambitious person, and I always seek to improve myself. As for the university field, we are nowhere near returning to face-to-face classes after two long years, which honestly excites me, and makes me want to put more effort into everything I do. My average is currently very good, and the knowledge acquired is invaluable, so I feel capable of performing in my area. I want to end this by thanking all of you, the people who promote dreams and goals. Honestly, I speak not only for myself, but for everyone, thank you very much for making this possible.

(Unedited)

Well, I am currently in 7th semester of the Translation career so in a year I will be graduating. Right now I am focused on school, and everything is going great in the university, but I am also trying new hobbies on my free time like knitting and singing. I actually discovered that I really really love singing and that knitting helps me relax. As to my plans when I finish school, I have been thinking a lot and I am seriously considering moving to Saltillo, Coahuila and work maybe as a private English teacher while I wait for my professional title that takes a year for me to have after graduating. Then I want to find a job where I can use my knowledge as a translator/interpreter, and when I have financial stability I want to give back to BSF a little bit of all that they have given me and all that they have done for me. I want to become a sponsor and help with what I can help. I want to give other kids the opportunity that BSF gave me to pursue my academic and profesional goals. I want to be an example and motivation for others on what they can achieve if they make their best. And I want my family and BSF to be proud of the woman I am becoming and will be.

(From Elmer - Unedited)

I want to thank all the members of the foundation for their great work, and for the support they give us students, thanks to that last Friday I got my Cambridge certificate, one more goal accomplished, now I will focus on high school and give the one hundred percent, thanks for everything"

"Cambridge Rosarito has been the first option to learn or perfect the English language in the Municipality of Playas de Rosarito. For 18 years we have been at the service of students and professionals, helping them consolidate their achievements in learning English and open the door to new job, academic and professional opportunities."

From Andrea:

Hello!

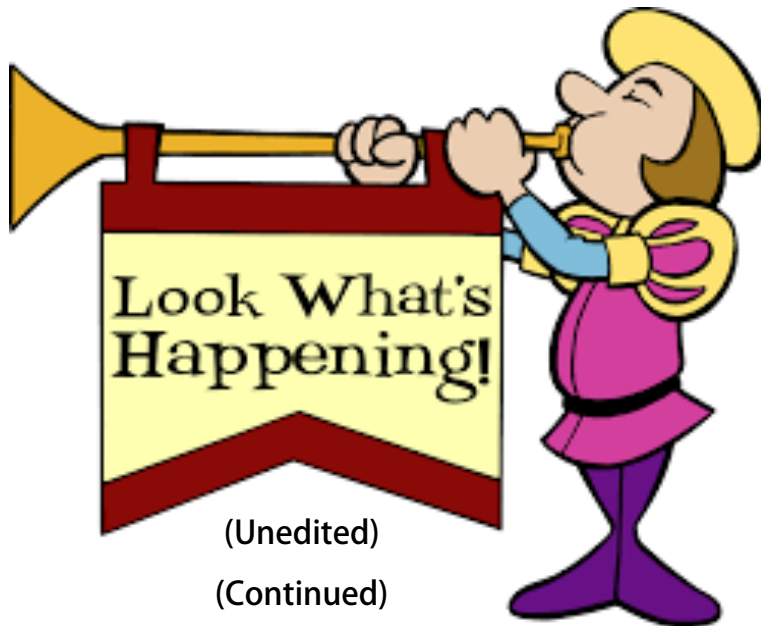

I have two jobs haha. During the day and 6 days a week an 7 hours a day I work in morena (the political party) some days I just do Photoshoot and another days I'm in an Office doing paperwork...and on weekends I work playing 🎤 with my fiance in a restaurant and in a bar. I also work in private parties on the weekend, but not every weekend. I'm very happy with my jobs. Still loving music as always, or I think even more ❤️

From Juan:

By the moment I continue working in Hisense Rosarito and playing music with my band! Greetings for all BSF and hope to see you soon!

From Flor:

Hello good evening.

At the moment I am a stay at home mom and manage online sales. In August Isabella, my daughter starts kindergarten and I will have more time to take some workshops to be able to get more involved supporting my husband business at the Gallery in a more professional way!

From Joselin:

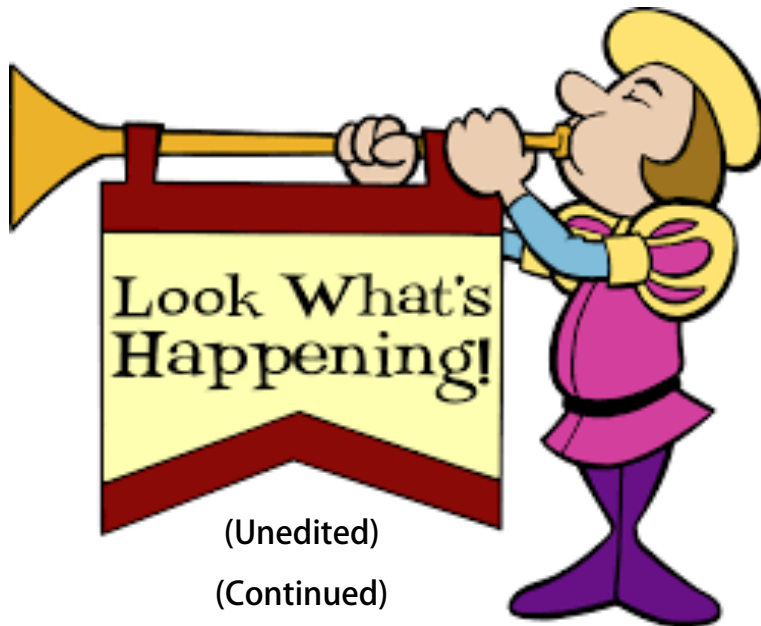

I'm just graduated 🎉🎓 of the career of International Trade and Customs.

Last month I finished my professional internship at the Ensenada customs, I was working in national and international export.

I just started a master's degree as a professional MBA (Master Business Administration).

Greetings 👥

From Juleny:

Good morning!! Im working at Volkswagen in Tijuana. Now, in a new area for me. Im Payroll Manager, each day learning new things and try my best. And if someone is interested to buy a new car, you could contact me and I will recommend you our best sales executive 🚗🚗 blessings💕💕

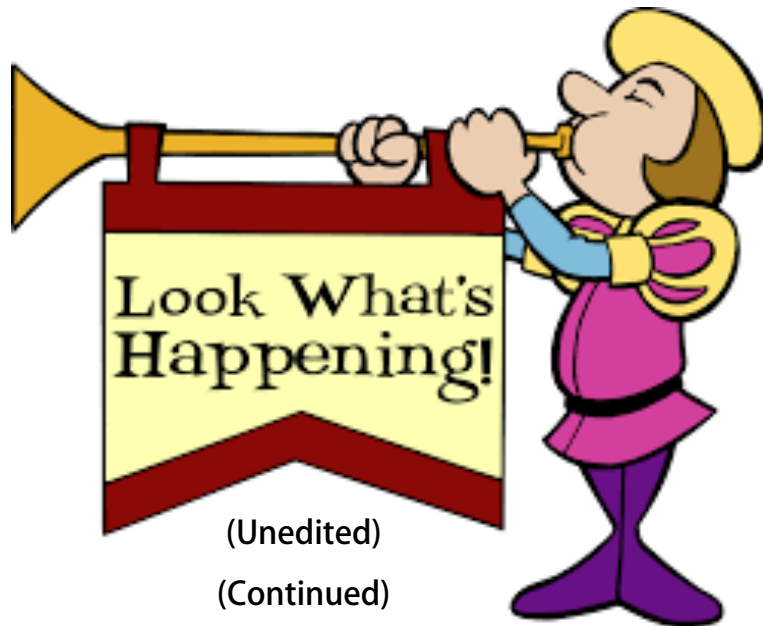

From Maria:

Hello, I have been working for an insurance company for 9 months, in the afternoons I continue teaching children, and a few months ago I started working with my career, now I have 2 clients.

As you know I have a baby, his name is Diego, he is 1 year old and it is my motivation to get up every day and get ahead, I hope that soon we can see each other so that you can meet him.

From Alondra:

At the moment I'm still working for a elementary school as an English teacher, and I'm gathering requirements to have a place in a high school 🥰💕

At the end of March I will give classes in person.

*for your*  
**GENEROSITY**

ZOOMcatalog has supported Cesar and Diana Delgado's education for a number of years and have pledged to continue their support through university. Unfortunately Cesar has

Noleen, Cesar, Diana, Mom & Dad

multiple sclerosis and is unable to attend school, but ZOOMcatalog continues to help him and the family financially as much as possible. Diana is still in school and her educational needs continue to be supported.

Recently two employees asked their boss, Noleen, to donate their overtime pay to Cesar, Diana and the Delgado family, and of course she said yes without hesitation!

ZOOMcatalog also matched the employees' donations on behalf of the whole team. Your caring donations are very much appreciated by the Delgado's and BSF!!!!

Continued

**The upcoming Susanna's wine pairing/luncheon on April 8th will once again be a culinary delight with wines featured from the Black Cross Winery.**

**(by Joanna Wood)**

What a fun experience to fine-tune the food with the wines! A great food and wine pairing create a balance between the components of a dish and the characteristics of a wine and heightens the overall experience. Susanne is a master in looking at what wines pair well with what foods. The real

excitement was in the experimentation - deciding on the three courses and then embellishing on them by adding a little bit of bleu cheese, a little bit of bacon, a little bit of jalapeño, a little bit of basil, a little bit of this and a little bit of that! All these heightened the flavors of the three courses to be served. And those flavors brought out the full body of the three wines chosen from the Black Cross Winery. After many sips of wine and many sample tastings, the menu and wine pairing were complete.

1st Course

**SMOKY BLEU CHEESE WEDGE**

Topped with Walnuts and Bacon

**TEMPTATION**, Cabernet, Zinfandel & Dolcetto

2nd Course

**ROSEMARY SHRIMP**

Grilled Shrimp brushed in Rosemary Oil served over Orzo with fresh Peas, sautéed Spinach and Red Pepper Confetti topped with a Jalapeño Pesto

**PINK MOON**, White Grenache

3rd Course

**CHOCOLATE FUDGE CAKE**

Served over a Cherry Chipotle Coulis with fresh Basil Ribbon

**PARIS MOON**, Rosé

"Everybody" knows Ruth Rockwell! Well, it does seem that way as she spreads her energy and good humor throughout the charitable organizations in Baja. She has been on the BSF Board and the Fundraising Chairperson for many years, and created the popular Classy Bag Affair (Yes! We hope to do it again!).

Less in the public eye, but a popular member of the Bajamar community was Rocky (Robert) Rockwell, Ruth's husband of more than 57 years in August. Rocky spent the last 8.5 years of his life at Alice Living, a lovely home for Alzheimer's patients here in Baja. Rocky's long struggle ended with his peaceful death at Alice Living on January 31, 2022. Ruth's regular visits to Alice Living, events she scheduled for the home and the friends she made there were more examples of her giving back.

We send our condolences to Ruth and our admiration for the way she handled this challenge in her life.

**Cry**

**The party is going and music is playing  
I'm here, but I don't know why**

**People are dancing - some just listening  
And nobody hears me cry**

**The crowd is friendly - they're talking to me  
And I try my best to reply**

**I know they care and I know they watch  
But nobody sees me cry**

**The Hours is late and everyone's tired  
They're hugging and saying good bye**

**I'm doing the same and doing it well  
So nobody knows I cry**
