### Johann Got His Diploma

Reaching this point in my life is like an entire sea of emotions; to me, it means so much. Being able to be here represents the culmination of goals, dreams, aspirations, and commitments, while also marking the beginning of new goals to achieve. The happiness I feel from achieving something that was a childhood dream for me is an inexplicable emotion. Being at the point where I am is almost

surreal for many, as it was for me; but it also shows me that this is a demonstration that with effort, perseverance, and commitment, dreams can materialize for everyone.

This is not solely my achievement; I am extremely grateful to all those who have journeyed with me along this long road, including my family, friends, and BSF; undoubtedly, they have all been a crucial part of my academic and personal development. I have learned a lot on this journey, for which I am very grateful. Words are never enough when it comes to thanking the attention and love of the people who support making your dreams a reality. Although at times, these goals may seem challenging, or we may be frustrated by things we cannot control, there is always a reason to keep going, to achieve everything we set out to do, and to fill not only ourselves but also those who believe in us with pride.

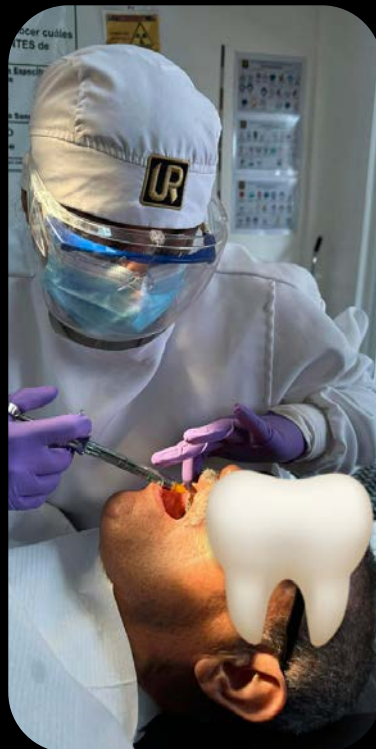

I thank each and every person who is part of BSF for being a family to each and every one of the students who are part of it. Incredible opportunities are provided to us to achieve everything we set out to do; it is our responsibility to take advantage of these opportunities. I encourage each and every person reading this to commit to fighting for their dreams; for me, this is not the end of my goals, but the beginning of new ones.

I want to dedicate this achievement to Judie, who was such a beacon of light and love for me, my family, and people I know from BSF. I will always be very grateful for all the support she provided me with and for the love she showed me until the last time we were able to see each other. I would have loved to tell her this, but I know she would be very happy about this. I also want to mention Rosemary, who has always cared for everyone and has been an important pillar for me in achieving all this. Thank you very much BSF for being part of my academic career; I love you all.

Tania graduated from High School in 2021 and is now a Dental Student at Universidad Rosaritense, Rosarito.

Hello, good evening everyone. I would like to share some photos with you about my clinical practices with my first patients. For now, I only perform resin and amalgam fillings. It is a completely new experience and a constant learning process. Thanks to my sponsors and to BSF for being part of the journey; what once started as a dream is slowly becoming a reality. Forever grateful to all of you. ❤️

(by Perla)

Exciting news from Cambridge Rosarito Institute! Our students are on a journey of English language learning, and attending English classes at the institute is a fundamental requirement. This past Saturday, May 4th, it was held The annual Spelling Bee competition 🐝, where our talented students showcased their spelling prowess. We're thrilled to announce that Valery once again clinched the 1st place! Congratulations to all participants for their hard work and dedication.

Another Successful Wine pairing at Susanna's  
April 12, 2024

## **Dessert - Chocolate**

# Farewell!

## A TRIBUTE TO BSF:

We would like to express our deepest appreciation and heartfelt thanks to the Baja Scholarship Foundation. This organization truly is transforming the lives of children and giving hope through education. We have been involved in this organization for over 8 years and have found it extremely rewarding to be on the Board of Directors and to have sponsored two students through university. It has been our privilege to attend functions where we get to see our students acknowledge BSF and to see the BSF community support this organization. For personal reasons, we are leaving Baja and returning to Arizona, but we will always carry with us the profound impact the BSF students have made on us, and so many others, with their determination and perseverance to receive an education. It was truly a rewarding experience to be a part of this organization and one that will not be forgotten.

Joanna and Bill Wood
